

OHM-BAT

INDIVIDUAL BATTERY SOLUTIONS

SYSTEM DESCRIPTION

Our battery systems stand out through meticulous planning and perfectly coordinated components - including rectifiers, fuse boxes, and power distribution.

APPLICATION AREAS

- Energy providers & infrastructure
- Data centers
- Medical facilities & sectors
- Industry
- Defense & disaster protection

PLANNING - INSTALLATION - COMMISSIONING - MAINTENANCE: ALL FROM ONE SOURCE

As a manufacturer-independent company, we can draw on a wide range of products and types to offer our customers the best possible system configuration for their specific project requirements.

Whether for industry or military applications - our battery portfolio ranges from lead-acid batteries to nickel-cadmium and lithium, all the way to NATO-certified solutions - reliable, robust, and ready for the most demanding requirements.
